

Regarding Sinclair Broadcasting's decision to air an anti-Kerry show right before the election on November 2nd. I believe this is a mis-use of the public air waves and is one of the most important issues facing our country today. I'm beginning to lose hope that we have a fair playing field for our democracy. I think the public would be better served if they aired a documentary about how the beginning of the end of a democracy starts when corporations have more power than the government. Theodore Roosevelt understood this. A documentary highlighting his battle against corporate power would be of great interest to me rather than the political propaganda they intend to air.
